4. Meter Parking – Topic open for discussion – items to be presented for approval at a future meeting

PSM Ford and BSDD Sheppard-Decius presented the item and replied to comments and inquiries from the APC.

APC members discussed the following topics:

DRAFT

- Extending meters from one to two hours would significantly decrease on street parking turnover, and high turnover benefits many Birmingham retail establishments;
- An hour long meter was too short a time for people dining out in Birmingham;
- Those having a meal in town should be encouraged to park in the structures rather than on street;
- Having meters be one hour during some time periods and two hours during others could be appropriate;
- It would be prudent to explore using NFC to collect payments at meters since it is a more reliable technology;
- It would be helpful to know where the one hour meters are located and to solicit more feedback from merchants via a survey;
- This decision could be implemented in tandem with the expansion of free 15 minute parking in the City, so that people with brief errands do not occupy a metered space and people otherwise would have a two hour option; and,
- It might be most appropriate to keep the meters to one hour between the hours of 10 a.m. to 4 p.m. to encourage turnover during those times.

Motion by VC Astrein
Seconded by Ms. Moody to table this discussion until we have further information on the meters - location of the one hour, two hours, even where the 12 hour ones are. In addition to that, to get a survey from the merchants to see how they feel about that.

Motion carried, 4-0.

Presented by: Aaron Ford

Date: December 12, 2023

Current Parking Meter Program

Introduction

- On-Street Parking Changes
  - Removal of 1 Hour Zones
  - Expansion of 15 Minute Parking
  - Dynamic Pricing

BIRMINGHAM
A WALKABLE CITY

Current Parking Meter Program

- The City currently using CivicSmart LNG Smart Meters. Guests can pay for the parking at the meters in one of three different ways:
  - Coins – least popular form of payment
  - Credit Card (All four major cc's accepted) – 2nd most popular form of payment
  - ParkMobile (Mobile App) – Most popular form of payment
- The City currently has four different time zones that restrict the maximum time a person can part at a meter.
  - 1 hour
  - 2 hours
  - 4 hours
  - 12 hours
- Patrons can park in a metered parking space for one of the 4 time frames from 9 a.m. – 5 p.m. From 5 p.m. – 9 p.m. the time limits at the 1 hour and 2 hour zones extend to 4 hours so patrons are not forced to move their vehicles during that time frame.
- Currently, parameters are in place that prevent a patron from being able to pay by credit card or ParkMobile after the max time (1, 2, 4, 12 hours) has been reached in parking zone. Therefore, a patron must move their vehicle to another zone or receive a citation.

BIRMINGHAM
A WALKABLE CITY

Proposed Recommended Changes

- City staff is proposing to make the following changes to enhance the on-street parking experience
  1. Convert all 1 hour zones to 2 hour zones
  2. Identify specific parking spaces to convert to short-term parking
  3. Implement “Dynamic Pricing”

BIRMINGHAM
A WALKABLE CITY

On-Street Program – Proposed Recommended Changes

1. Convert all 1 hour zones to 2 hour zones
   - According to the BSD (Birmingham Shopping District) the average length of stay from a visiting patron is 2 hours.
   - One of the more common complaints is that it takes longer than 1 hour to go out to eat, get your hair done, or complete a workout/yoga class

On-Street Program

2. Expand Short-Term Parking (15 Minute) Program
   - Expand 15 minute pilot program to 16 spaces throughout downtown to provide locations for deliveries (FedEx & UPS), DoorDash, & GrubHub, etc.
   - Providing spaces for these services will hopefully decrease the current offenses of those parking in the left-hand turn lanes, in ADA spots, and hashed off areas next to ADA spaces
   - Having a reliable sensor program that will alert Parking Enforcement Officers of offenders is the key a successful program.

3. Dynamic Pricing
   - Strategically charge higher rates at select meters at specific times of day
   - Charging higher rates will incentivize parking in spaces further away from the most popular zones, spreading out parking and making the structures more appealing to use
   - Current meters have the ability to communicate variable rates and hours

BSD Board Recommendations

Proposed changes to the parking meter program were presented to both the BSD Maintenance Committee and the BSD Board

1. Removal of 1 hour zones – The board recommends that all 1 hour zones be converted to 2 hour zones except those on Old Woodward and on Maple, West of Old Woodward
2. Expansion of 15 Minute Parking – The board approved all aspects of this program
3. Dynamic Pricing – The board was very split. A compromise was reached that dynamic pricing should only be considered in the 1 hour zones since those are the busiest locations and represent a small area of the overall parking system
4. The board also recommended that these programs should start as pilots and before permanent implamentation
